## DETAILED ACTION

### ***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-3, 5, 6, 9, 10, 12-14, and 16-20 are rejected under 35 U.S.C. 102(b) as being anticipated by Shaver 5,996,870.

Shaver teaches a bicycle carrier comprising an elongated support rail 34, secured 35, 40, to an article carrier 12, a foldable wheel support 36, a frame engaging assembly 38 operable associated with the support rail via the wheel support, tubes 70 and a clamp 88.

3. Claims 1-20 are rejected under 35 U.S.C. 102(b) as being anticipated by Graber et al. 4,702,401.

Graber teaches a bicycle support device comprising an elongated support rail 10, secured to an article carrier 13, a foldable wheel support 12, a frame engaging assembly 38, with a tube 16 and a clamp 18. See in particular figures 1 and 3-5. As to the claimed limitation that the carrier is vertically orientated, this is an intended use recitation which has been considered but does not structurally define over the horizontally orientated carrier of Graber. It is further noted that the wheel support of Graber can be oriented in any direction necessary, has a u-shaped hook portion (see figure 5) and is limited in its travel by ends of bracket 22.
